

## ATTENTION SITE INVESTIGATORS AND STUDY COORDINATORS

Effective today (**April 15, 2005**) new patients randomized should not have the C-reactive protein (CRP) laboratory specimens drawn at INFUSION VISITS 1, 30 & 40. Mt Sinai will not cover cost of CRP testing for new patients:

**For subjects enrolled on or after 4/15/2005, do NOT collect any Cardio CRPs and enter "Not Done" in the CRP data field.**

All previously randomized patients in whom the CRP measurement series has been initiated SHOULD CONTINUE to have those measurements collected at Infusion 30 & 40. Mt Sinai will cover the cost of testing for previous patients:

**For subjects enrolled prior to 4/15/2005, enter CRP result obtained at Visit 1. Continue to collect Cardio CRP at visits 30 and 40 and enter results.**

**Hear ye, Hear ye... ALL TACT SITE INVESTIGATORS and COORDINATORS**
